#1 I wish we had a way to communicate in an encrypted manner. Tell me if you want to pursue it

#2 Found a offshore tech provider that takes Paypal AND found a way to use anonymous gift cards with Paypal

Real anonymous steps

1. Get gift card at Ralphps (\$100)
2. Obtain anonymous IP (Library, Apple store - DO NOT USE your own Laptop)
 - a. Get Yahoo email (free)
 - b. Register gift card with a REAL address and telephone (I always use a Starbucks/Coffee Bean/Mac Donalds)
 - c. Buy foreign VPN
3. Throw away yahoo address, never use it again, same for gift card

with Foreign VPN you can pretty much anything because 100% of traffic is encrypted and offshore. VPN provider does not respond to inquiries and does not keep web logs. This is well documented.

SO lets get into pharma and gaming!
